Keshav Ghai

Software Engineer | Full-Stack Development, AI & Automation

+91 7657805107 • ghaikeshav55@gmail.com • Khanna, Punjab, India

GitHub: https://github.com/Keshav76315 • Portfolio: https://keshav-ghai.vercel.app

Professional Summary

Software engineer with hands-on experience across full-stack development, AI/ML, automation, and technical design workflows. Currently pursuing a BS in Data Science and Applications at IIT Madras while working in real-world technical environments spanning software systems and architectural execution. Strong interest in building scalable products, intelligent systems, and practical automation solutions.

Technical Skills

Languages: JavaScript, TypeScript, Python, C++, SQL, Go

Frontend: React, HTML5, CSS3, TailwindCSS, Bootstrap, shadcn/ui

Backend: Node.js, Express.js, FastAPI, REST APIs, JWT Auth

Databases: MongoDB, PostgreSQL

AI/ML: TensorFlow, Scikit-learn, ONNX, OpenCV, NumPy, Pandas, Tesseract OCR

DevOps & Tools: Git, Docker, AWS, Prometheus, Grafana, Electron, Vercel

Architecture & Design: GstarCAD, SketchUp, Construction Documentation, Working Drawings, Site Inspection

Design & Visualization: Graphic Design, UI Layouting, Interior Visualization

Experience

Architectural Intern — Studio Eclecea

Apr 2026 – Sept 2026 | On-site

- Prepare architectural floor plans, working drawings, and interior detailing using GstarCAD.
- Develop electrical, plumbing, sanitary, and interior drawings for residential and interior projects.
- Conduct site inspections to identify execution issues and coordinate design revisions.
- Currently learning SketchUp for architectural modeling and visualization.

Freelance Full-Stack Developer (Contract) — Green LeafX

- Built a sustainability education platform with automated content ingestion pipelines.
- Integrated YouTube Data API for automated video classification and modular content management.
- Designed responsive admin workflows and optimized mobile usability.

Applied Machine Learning Trainee — Unified Mentor

Mar 2026 – Jun 2026

- Worked on structured machine learning workflows involving preprocessing, feature engineering, and model evaluation.

- Built data analysis and reporting pipelines using Pandas and Scikit-learn.

Projects

turboSH — AI-powered optimization middleware with anomaly detection, request scheduling, and observability.
Repository: https://github.com/Keshav76315/turboSH

Guidon's Eye — Privacy-first productivity assistant that tracks active apps and provides contextual AI nudges locally.
Repository: https://github.com/Keshav76315/guidons-eye

LawBuddy — Local-LLM legal assistant built for offline document drafting and privacy-preserving legal workflows.
Repository: https://github.com/Keshav76315/LawBuddy

Recommendation Engine — Machine learning recommendation system designed for personalized content ranking and prediction.
Repository: https://github.com/Keshav76315/recommendation-engine

Education

IIT Madras (Online)
June 2026 – Present
BS in Data Science and Applications (Expected Graduation: 2029)

NxtWave Institute of Advanced Technologies
June 2025 – Jan 2026 (Program Discontinued)
B.Tech CSE (AI/ML)

PSEB
Apr 2023 – Apr 2024
Senior Secondary (Class XII): 84% | JEE Mains: 84.1 Percentile

Certifications

IBM Data Science Professional Certificate • IBM Applied Software Engineering Fundamentals • AWS Cloud Practitioner Essentials
